

**KIMBERLY SANDS**

*Great Western Petroleum*

Kimberly Sands is Director of Reserves and Planning for Great Western Petroleum, a private oil and gas exploration and production company. She has over 20 years of experience in the oil and gas industry. Kimberly joined GWP in 2016. Before her time at Great Western, Kimberly was an Asset Engineer for the Rocky Mountain division of Samson Resources Company. She was a completions engineer in the Paradox Basin for Encana. Kimberly began her career with Vastar/BP in the GOM Shelf as a drilling engineer. Kimberly earned her Bachelor of Science degree in Petroleum Engineering from Colorado School of Mines. She is a registered professional

engineer in Colorado.

In 2020, Kimberly was recognized by the Denver Business Journal as one of Denver's Top Women in Energy. She currently serves as secretary for the Colorado chapter of the Women's Energy Network (WENCO). Additionally, Kimberly is actively involved in the Junior League of Denver (JLD).
