

DAN SPANCERS

FORZA Energy Group, LLC

Dan is the Managing Principal at FORZA Energy Group. He manages a diverse portfolio of business projects primarily related to the oil and gas industry. Dan coordinates the technical evaluation of a diverse range of new technology and service related opportunities in the oil and gas industry and related sectors. In addition, he evaluates the geologic and business aspects of oil and gas acquisition opportunities worldwide.

Dan has more than 35 years of industry experience and has worked for companies like Enerplus, Cimarex, Petro-Canada, Encana, and Hallwood. Dan received his Bachelor of Science degree in Geology from the University of British Columbia and studied for his MBA at the University of Colorado-Denver. Dan also currently serves on the Board of Directors of the Canada Colorado Association and is a longstanding member with the AAPG and RMAG and a Lifetime member of the Geological Society of Malaysia.

DPC Director: 2016-present
